

## Toilet Roll Holder

TRH02

### Ligature Resistant Toilet Roll Holder

 <b>Approvals</b>	 <b>Technical</b>	 <b>Materials</b>
Non flammable, BS476 Pt 6 & 7 Class '0' and Class '1' ISO EN 19712-3-2007 rated 5 for durability, stain resistance, cigarette burns etc	Dimensions (HxWxD): 7 <sup>1/4</sup> " x 6 <sup>1/8</sup> " x 4 <sup>3/4</sup> "	Solid Surface

#### Description

The TRH-02 is Wallgate by AquaDesign's single cast anti-ligature vandal resistant solid surface toilet roll holder. The TRH-02 is securely fastened using security screws making it front mounting only.

The TRH-02 range is extremely tough, being made from the highest grade solid surface materials. This makes it ideal for the Secure Environments and Healthcare Environments where ligature and vandal resistant sanitary ware may be preferred, however with its domestic appearance it is suitable for all markets.

The TRH02 has a 1/16" flat surface on the top to facilitate the application of an anti-pick sealant. This should be applied and then profiled, using a suitable tool, to follow the angle of the top of

the toilet roll holder. The TRH02 fits toilet rolls with a 1-5/8" min. ID and a 4-1/8" max. width.

Color and finish is always high polished polar white.

#### Features

- Ligature resistant
- Vandal resistant
- Helps normalize environment
- Hygienic and easily cleaned
- Proven long-term product life

Dimensions

In the absence of a legal or industry definition of anti-ligature or ligature resistant products, when we use these terms, we are referring to products that are designed and manufactured with the intention of reducing the risk of ligature attachment to the product(s). Wallgate will always endeavour to design and test our anti-ligature product(s) to reduce the risk of product ligature attachment that may result in serious injury or death. Whilst all reasonable measures are taken at the time of design, the anti-ligature design of the products are not intended to and will not:

- a. Replace protective measures that need to be taken in the specific circumstances of usage;
- b. Substitute the need for supervision of those who may be at risk;
- c. Protect and or prevent those at risk against any self-harm instances that may occur when installed; and
- d. Protect and or prevent injury when the risks where unknown to us at the time of the design of the product(s).

Wallgate and The Intersan Group do not offer and do not represent or warrant that any product(s) for sale that are ligature-free. Therefore, Wallgate and The Intersan Group will not be liable for any claims, loss, or damages arising from ligature attachment on our products. It is the purchaser's responsibility to ensure that products purchased and installed are suitable for the environments in which they are installed, and suitable supervision and protective measures are in place to protect those at risk.

Whilst all reasonable care has been taken in compiling the information in this document, the designs, dimensions and products shown are indicative only and should not be relied upon without our prior approval. Due to our policy of continuous development, we reserve the right to alter any details of specifications or products without notice. All information, drawings, technical specifications and product designs remains the property of Galvin Engineering Pty Ltd.

<sup>(1)</sup>Should the toilet roll be "over" or "under"? Science research indicates that "under" increases the possibility that food-poisoning bacteria will spread from the restroom to other areas <sup>(1)</sup>.
