## SENSOR FAUCET WITHOUT THE ATTITUDE

---

Sometimes it is really that simple: you want a reliable sensor faucet without the whistles and bells at an affordable price.

AquaDesign's LINE12 faucet is just that. Backed with a 2 year warranty the faucet delivers when it needs to. The faucet has a water use of 0.5GPM and is certified lead free. It comes standard with a 4" deck plate to make your retrofits easier. Powered by transformer or batteries, this faucet is a work horse.

Your customers, students, patrons and employees expect a hand washing experience that makes them feel safe. The LINE12 just does that without breaking the bank.
