ANTI-LIGATURE BASIN AND FAUCET

The new LRS01 anti-ligature basin from AquaDesign is a heavy duty behavioral healthcare sink constructed from 14 gauge stainless steel including 11 gauge integral mounting brackets. The basin is available in a brushed stainless steel or white powder coated finish.

The front of the basin has an access panel that allows for easy servicing.

The ADM21 anti-ligature faucet is designed to complement the LRS01 basin. It can also be installed on any basin that accepts 4" center faucets. The sensor operated faucet comes standard with both a 110V plug-in transformer and battery power supply.

TECHNICAL SPECIFICATIONS LRS01

- Dimensions (HxWxD): 21" x 19" x 18-1/8"
- Material: Stainless Steel
- Finishes: Brushed Stainless or White Powder Coated
- Bowl Depth: 6-1/4"
- Faucet: Punched for 4" center faucets
- Barrier free: ADA, TAS, Alberta Building Code Ontario Barrier Free

TECHNICAL SPECIFICATIONS ADM21

- Material: Chromed Leadfree Brass
- Power Supply:
 - AC: 110V Plug-in Transformer
 - Backup DC: 4 x AA Batteries
- Battery life: 35,000 to 40,000 hand wash cycles
- Water usage: 0.5 gpm aerated or 0.5 gpm laminar
- Sensor Range: 2-10"
- Water inlet: 1/2"
- Water pressure: 8-116 psi
