

OMNIA

Handwash System

OMNIA HANDWASHING SYSTEM

AquaDesign's Omnia was designed with aesthetics and performance in mind. The all-in-one solution offers a timeless elegant design that fits any restroom.

AquaDesign's Omnia was designed to avoid water splashing to the floor. The Omnia design not only saves space but also allows for a faster flow of traffic in the restroom.

AquaDesign's All-in-one is a countertop mounted hand dryer tap and a water and soap dispenser faucet, all ready to work together as one beautiful, touch-free, hygienic and highly efficient system.

AquaDesign's All-in-one has been thought and designed to avoid water splashing on the floor, to save space and to spend less time inside the washroom.

AquaDesign's All-in-one solutions are eco-friendly, saving more than 73% in terms of economical savings vs. similar solutions on the market.

Technical Specifications Faucet

- Power supply:
 - AC: 110V plug-in transformer
 - Backup DC: 4 x AA batteries
- Sensor Range: 2" - 10"
- Maximum water flow duration per cycle: 60 seconds
- Recommended soap viscosity: 100-3,500 cps
- Soap container: 0.4 gallons (1.5 liters)
- Water Pressure: 8-116 psi
- Soap dose: 0.5, 1.0, 1.0 or 2.0 ml
- Water flow (at 43 psi): 0.5 gpm
- Recommended sink depth: 4-3/4"

Technical Specifications Dryer

- Power supply:
 - AC: 110V plug-in transformer
- Sensor Range: 2" - 10"
- Speed: 19,000 - 30,000 rpm
- Type: Universal Brush Motor
- Turbine: High Pressure Centrifuge
- Dimensions Engine: 13" x 8.4" x 6.7"
- Material Engine: Stainless Steel
- Weight: 10.4 lbs
